I am an Information Security student with a strong passion for software development. I enjoy learning new technologies and have experience building full-stack web applications. I'm looking for a professional environment where I can grow as a developer, improve my skills, and contribute to real-world projects.

## **EDUCATION**

Information Security Sep 2021 - Present

Posts & Telecoms Institute of Technology HCM (PTIT HCM)

**GPA:** 2.85

Ho Chi Minh

## **WORK EXPERIENCE**

## **Frontend Developer Internship**

Jun 2024 - Aug 2024

**TMA Solutions** 

Project name: Travel Social WebApp

- **Description**: A social travel platform that connects users through travel experiences and provides integrated services such as hotel and flight booking for a seamless trip planning experience.
- Role: Front-End Developer Intern
- · Responsibilities:
  - · Developed user interface components using Angular to enhance usability and user experience.
  - Integrated RESTful APIs for hotel and flight booking services, ensuring real-time data flow and a smooth booking experience.
- Tech stack: Angular, RESTful API, Git
- Team size: Worked in one of several front-end teams, collaborating with other teams in a large microservices-based project.

## **PROJECTS**

## CTF BATTLEGROUND - CYBERSECURITY CHALLENGE PLATFORM ☑

Feb 2025 - Present

- **Description:** A web platform that simulates real-world Capture The Flag (CTF) challenges, helping users practice cybersecurity skills in a gamified environment.
- Role: Full-Stack Developer
- · Responsibilities:
  - · Developed a responsive, interactive frontend using Angular for challenge navigation, user scoring, and real-time interaction.
  - Built secure and scalable RESTful APIs with Spring Boot to manage user authentication, challenge lifecycle, and submission evaluations
  - Deployed the system using Docker and Kubernetes for high availability and scalability.
  - Implemented a CI/CD pipeline via GitLab to automate building, testing, and deployment processes.
- Tech stack: Angular, Spring Boot, Java, MySQL, Docker, Kubernetes, GitLab CI/CD
- Team size: 1 member (solo project)

# SKILLS

Frontend: HTML, CSS, Javascript, Reactjs, Angular, Nextjs

**Backend:** Java, Spring boot, Mysql **Devops:** Docker, Kubernetes, CI/CD

Others: Git, Linux, Networking, Cybersecurity Fundamentals

# **LANGUAGES**

English (Limited working proficiency)
